

JOB TITLE: Analyst

MANAGER: EVP, Asset Operations and Analytics

JOB TYPE: Full Time - Permanent

DRI Capital (“DRI”) is a partner of choice in the global pharmaceutical royalty sector. Founded in 1992 as Drug Royalty Corporation, DRI has a strong track record of funding innovation and indirectly advancing patient care, backed by its deep, specialized expertise and capabilities that span indications, therapeutic areas and geographies. DRI’s managed funds have purchased over 60 separate international royalty streams from inventors, universities, research institutes, biotechnology and global pharmaceutical companies located around the world, payable on over 40 different leading pharmaceutical products. Headquartered in Toronto, DRI Capital manages DRI Healthcare Trust (the “Trust”), an unincorporated open-ended trust governed by the laws of the Province of Ontario. The Trust’s units are listed and trade on the Toronto Stock Exchange in Canadian dollars under the symbol “DHT.UN” and in U.S. dollars under the symbol “DHT.U”.

Job description:

DRI is looking for a highly-motivated and results-driven individual to join our team as an **Analyst**. This interesting and challenging position will provide the right person with a unique opportunity to learn about our global healthcare royalty business.

Specific accountabilities include:

Database Management and Data Analysis

- Maintain excel-based databases that include information about the business and the products
- Perform updates and ensure data integrity by running periodic audit procedures and checks
- Generate periodic reports and analyses for the Operations team and senior team members

Model Updates and Maintenance

- Maintain and update certain existing financial models
- Ensure data integrity by running periodic checks
- Generate regular reports
- Conduct simple scenario and sensitivity analyses

Financial Analysis

- Analyze pharmaceutical, biotech, or investment company filings and financial information to answer specific questions about their business and recent activities
- Create basic financial models related to recent transactions or other company financials
- Generate slides and reports and present findings on the analysis to the Operations and Investment teams

The DRI core values are **teamwork, integrity and drive to win**. Accordingly, the candidate we are looking for will demonstrate the following:

- Outstanding communication skills, both written and verbal
- Excellent interpersonal and well-developed relationship management skills
- A track record of hard work and success
- Strong organizational skills, with attention to detail, intellectual curiosity, and a proactive nature
- Ability to work well in a high pressure, time sensitive, entrepreneurial environment
- Quantitative aptitude, and experience with database management and financial modeling
- Demonstrated ability to engender trust and confidence of senior professionals, both internally and externally; able to interact effectively with all levels of senior management and across various groups (i.e. accounting, finance, investment professionals)

Qualified candidates will have:

- A minimum of 2 years of experience in a similar role.
- Hold an undergraduate degree in Finance, Economics, Business or other quantitatively oriented fields.
- Will possess the requisite Microsoft Office skills, with a proficiency in Excel.
- Master's degree in finance or CFA would be considered an asset.
- Previous experience in Life Sciences or investing would also be considered an asset.

This position is located in Toronto and offers a competitive compensation package, commensurate with experience.

To apply, please submit a resume and cover letter to careers@dricapital.com, citing the position title in the subject line. We thank all applicants for their response but only those considered for an interview will be contacted.
